

You're the Flight Surgeon

I have indexed the "You're the Flight Surgeon" (YTFS) column in Aviation, Space, and Environmental Medicine. The first article was in 1990 (August, vol. 1, no. 8), and 157 articles have been published through November 2013 (vol. 84, no. 11). I have indexed the condition discussed by general body system, with aeromedical, cancer, and toxic as categories.

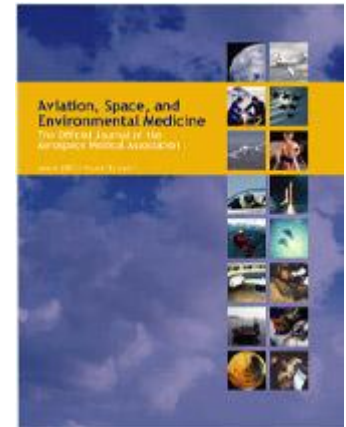

The categories are alphabetical: aeromedical, allergic, cancer, cardiac, dermatologic, endocrine, ENT, gastroenterologic, general, hematologic, infectious, musculoskeletal, neurologic, ophthalmic, psychological, pulmonary, renal, rheumatologic, toxic.

I removed the text "You're the Flight Surgeon" from the article title, so the condition name is the title in this index. Several articles had no text after YTFS; the condition I entered in [brackets]. For the several titles that had extraneous text I entered the condition in [brackets*] with an asterisk.

I will index by author, title alphabetically, and volume in the future. Please contact for errors or ideas.
