

Aviation, Space, and Environmental Medicine
Volume 79, Number 6
June 2008

RESEARCH ARTICLES

Inspiratory Resistance, Cerebral Blood Flow Velocity, and Symptom of Acute Hypotension

C. A. Rickards, K. D. Cohen, L. L. Bergeron, L. Burton, P. J. Khatri, C. T. Lee, K. L. Ryan, W. H. Cooke, D. F. Doerr, K. G. Lurie, and V. A. Convertino

557

Venous Gas Emboli in Normal and Dehydrated Rats Following Decompression from a Saturation Dive

S. Skogland, L. B. Stuhr, H. Sundland, R. E. Olsen, and A. Hope

565

Immune Function During and After 60 min of Moderate Exercise Wearing Protective Clothing

C. Jimenez, J. Mathieu, A. Peinnequin, R. Carter III, A. Alonso, and B. Melin

570

Albuterol and Exercise Effects on Ankle Extensor Strength during 40 Days of Unloading

J. F. Caruso, J. L. Hamill, M. Yamauchi, T. D. Cook, D. R. Mercado, and E. E. Wickel

577

Color Vision Testing by Farnsworth Lantern and Ability to Identify Approach-Path Signal Colors

B. L. Cole and J. D. Maddocks

585

Barriers to Hearing Conservation Programs in Combat Arms Occupations

S. M. Abel

591

HFACS with an Additional Layer of Granularity: Validity and Utility in Accident Analysis

P. O'Connor

599

Antiemetic and Sedative Levels Found Together in 26 Civil Aviation Pilot Fatalities, 2000-2006

S. R. Botch and R. D. Johnson

607

SHORT COMMUNICATIONS

Localization of Sound Presented Via a Spatial Audio Display during Visually Induced Vection in Pitch, Roll, and Yaw

K. I. McAnally and R. L. Martin

611

Neck and Back Muscle Loading in Pilots Flying High G_z Sorties With and Without Lumbar Support

S. Roope, O. Juha, R. Harri, and S. Simo

616

REVIEW ARTICLE

Regional Anesthesia for the Management of Limb Injuries in Space

G. L. Silverman and C. J. McCartney

620

CASE REPORT

High-Grade Bubbles in Left and Right Heart in an Asymptomatic Diver at Rest After Surfacing
D. Bakovic, D. Glavas, I. Palada, T. Breskovic, D. Fabijanic, A. Obad, Z. Valic, A. O. Brubakk, and Z. Dujic
626
