

**Aerospace Medical Association**  
**Resolution 00-3**  
**Health Risk Assessment/Intervention**

WHEREAS: The periodic flight physical examination is an integral part of aviation safety programs; and,

WHEREAS: The scope of the physical examination as determined by regulatory agencies may not include health risk assessment (HRA) and intervention programs; and,

WHEREAS: Although HRA and intervention programs do not necessarily impact flying safety, they do constitute good clinical preventive medicine practice; and,

WHEREAS: Practitioners of aviation medicine are strong advocates of prevention and healthy life styles;

THEREFORE BE IT RESOLVED: That the Aerospace Medical Association strongly recommends that aviation medicine practitioners promote health risk assessment and intervention services in preventive medicine.
