General John P. Jumper  
HQ USAF/CC  
1670 Air Force Pentagon  
Washington, D.C. 20330-1670

Dear Gen. Jumper:

I am writing to you as Executive Director of the Aerospace Medical Association (AsMA), an organization of approximately 3,300 members engaged in clinical aerospace medicine and related research. We have written a letter to the Honorable Michael Wynne (letter attached) expressing our concern about dwindling funding for aerospace medicine research at our military laboratories.

The Aerospace Medical Association stands ready to provide assistance to support research for the enhancement of human performance in aerospace systems. We have a very diversified membership with experts in all aspects of aerospace medicine including human factors, ergonomics, aerospace physiology, and clinical aerospace medicine to mention but a few. Furthermore, we are recognized internationally as the leading professional organization in aerospace medicine.

If we can be of any assistance, please feel free to contact us at any time. Thank you.

Sincerely,

Russell B. Rayman, M.D.  
Executive Director
