

## AsMA Tiered Corporate Membership

The Aerospace Medical Association, in an effort to optimize Corporate Member benefits and participation, has developed a Tiered Membership Structure. This structure allows Corporate Members to select the level of membership that provides them the “best bang for the buck.”

Briefly, the Tiered Membership Structure

- Offers corporate membership options to best suit their objectives and needs;
- Offers increasing discounts at each membership level;
- Provides the opportunity for greater interaction with AsMA leadership; and
- Offers greater Return on Investment at each membership level.

*Note: AsMA award sponsorship remains a separate activity and is not included in the Tiered Membership Structure.*

The three tables below detail membership options, benefits, and Return on Investment (ROI) for each membership level.

## Summary

Corporate membership is a critical membership component of AsMA. The Tiered Corporate Membership Level structure is being implemented in an effort by AsMA to better serve our Corporate Members. Please review this document and pick the best fit for your organization. As the charts below show, the ROI increases for each membership level. Also, the more active a Corporate member is, the greater the benefits will be received. As always, AsMA deeply appreciates your membership, sponsorship, and support.

**Table 1: Membership Levels**

Membership Levels	Standard	Bronze	Silver	Gold	Platinum
<b>Membership Dues</b>	\$450.00	\$800.00	\$1,200.00	\$1,750.00	\$2,500.00
