AEROSPACE MEDICINE AND HUMAN PERFORMANCE

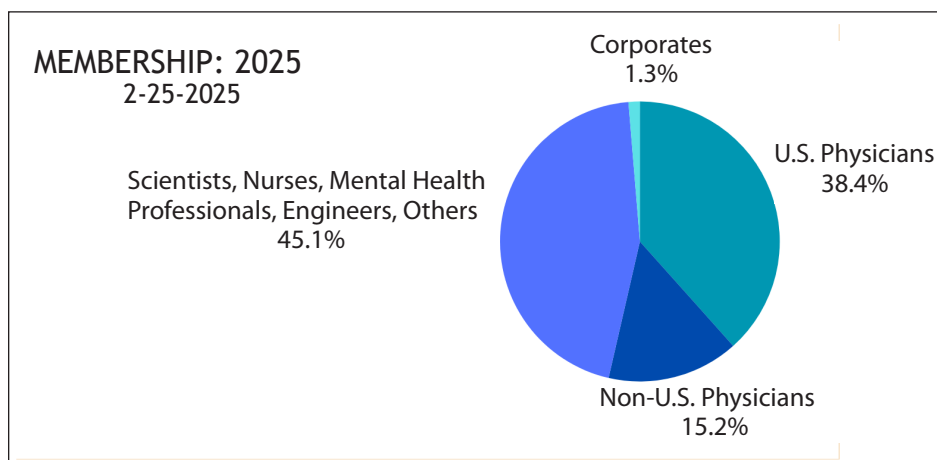

JOURNAL OF THE AEROSPACE MEDICAL ASSOCIATION

2025

The International Leader in Aviation and Space Medicine and Human Performance **Now in our 96th year!**

The Aerospace Medical Association (AsMA) is a non-profit organization. Our members are **physicians, physiologists, psychologists, human factors specialists, nurses, students, residents, technicians, and others** working to solve the problems of human existence in threatening environments on or beneath the Earth or sea, in the air, or in outer space. Since its founding in **1929**, the efforts of AsMA members have led to pressurized aircraft, oxygen systems, aeromedical evacuation, fire-retardant interiors, ejection seats, airline medical kits, and many other innovations. Contributions by members of AsMA are found wherever men and women dare to go.

AsMA members can be found, often in **high-ranking capacity**, working for the various **medical and research** divisions of **NASA, FAA, DOT, DOD, the military**, major **commercial airlines**, and many other public and private organizations.

Entering its **96th year** in publication, **Aerospace Medicine and Human Performance** (formerly *Aviation, Space, & Environmental Medicine*) is a peer-reviewed monthly publication. The original scientific articles in this journal provide the latest available information on investigations into such areas as: Human performance, cabin air quality, motion sickness, traveler's thrombosis, space tourism, fatigue, jet lag, psychological stress of flight and duty, health maintenance of pilots, increased or decreased gravitational forces, thermal stresses, pilot vision, circadian rhythms, artificial environments, predictors of success, human factors engineering, and clinical care.

This journal also provides teaching material and reviews for health care professionals.

By advertising in *Aerospace Medicine and Human Performance*, you are promoting your goods and services to the most influential group of medical officials in the aerospace field, worldwide.

Web Advertising Opportunities

We offer advertising space on our journal website on a yearly basis.

There are three positions available and they can run on the home page and interior pages:

- Horizontal banners, 728 x 90, above the head and below the footer; sold together for \$4100 annually
- Sky banner, 160 x 300, on the right hand side; \$1250 annually

For just a little more than the cost of a print ad for one month, you can have your company information available online to readers all year---24/7/365!

Contact salesinquiries@multiview.com for more information or to submit an ad.
