593

RESEARCH ARTICLES

Cognition Effects of Low-Grade Hypoxia

A. A. Pilmanis, U. I. Balldin, and J. R. Fischer

596

Frequency, Not Amplitude, of Latency Affects Subjective Sickness in a Head-Mounted Display

A. Kinsella, R. Mattfeld, E. Muth, and A. Hoover

604

Neuromuscular Adaptations Following 90 Days Bed Rest With or Without Resistance Exercise

B. A. Alkner, L. Norrbrand, and P. A. Tesch

610

Aeromedical Hazard Comparison of FAA Medically Certified Third-Class and Medically Uncertified Pilots

E. M. Ricaurte, W. D. Mills, C. A. DeJohn, M. C. Laverde-Lopez, and D. F. Porras-Sanchez

618

Cognitive Performance Effects of Bilastine 20 mg During 6 Hours at 8000 ft Cabin Altitude

P. J. L. Valk, R. Simons, A. M. Jettern, R. Valiente, and L. Labeaga

622

Demographic, Lifestyle Factors, and Reasons for Use of Dietary Supplements by Air Force Personnel

K. G. Austin, L. L. Price, S. M. McGraw, G. Leahy, and H. R. Lieberman

628

Sleep Disturbance in Female Flight Attendants and Teachers

B. Grajewski, E. A. Whelan, M. M. Nguyen, L. Kwan, and R. J. Cole

638

SHORT COMMUNICATIONS

Gaze Behavior While Operating a Complex Instrument Control Task

M. Kalicinski, F. Steinberg, M. Dalecki, and O. Bock

646

Personal Flying Accident Rates of Selected Light Sport Aircraft Compared with General Aviation Aircraft

W. D. Mills and C. A. DeJohn

652

CASE REPORT

A Report of Transverse Process Fractures Secondary to the Centrifuge in a Healthy Aviator

M. A. Puderbaugh

655

COMMENTARY

Use of Gene Expression Biomarkers to Predict Suicidality

R. Simons

659

FEATURES

661 **You're the Flight Surgeon**—*J. Rojas*

664 **This Month in Aerospace Medicine History**—*W. W. Dalitsch III*
