INFORMATION FOR EXHIBITORS

## WELCOME

**W**e want you to join us next April/May at the 90th Annual Scientific Meeting of the Aerospace Medical Association. At the 2018 meeting in Dallas, Texas, the number of attendees was 1,456. We have a unique membership that no other professional medical organization can equal. Our members include Aerospace Medicine and Clinical Physicians, Aerospace Nurses, Physiologists, Human Performance and Human Factors experts, Aerospace Medicine Physician Assistants, Public Health experts, Occupational Medicine physicians, Environmental Medicine experts, and a host of scientists engaged in aerospace medicine policies, operations, and research from around the world. You will have the opportunity to meet leaders, practitioners, and scientists from the FAA, NASA, the aerospace industry, the airlines, the Military Services, and consultants in the private sector. There will also be in attendance senior government, military, and airline medical personnel from over 70 countries. Approximately 25% of our members are from overseas. No matter where we come from or what we do, we are bound together by a common interest in the health and safety of all those who fly in air and space, crews and passengers, and of those who support aerospace organizations on the ground. Our Association has approximately 2,250 members providing an excellent target market for the purchase of equipment, supplies, pharmaceuticals and ancillary products. Listed below is a breakdown of the attendees at the 2018 Annual Meeting:

***Las Vegas is a DRAW in and of itself - a World of It's Own when it comes to bringing in the attendees!! The Rio All Suites Hotel has Great Meeting Space where the General Sessions are located immediately adjacent to the Exhibit Hall to ensure great traffic. So, we are expecting another BIG AsMA Annual Meeting attendance to be joining us in May!*** Besides the regular attendees, invitations will be extended to medical schools in the state.

The attendees at our Annual Meetings have a reputation of visiting the exhibit area in force each day. Listed below is a synopsis of typical exhibitor comments from the 2018 meeting. The results are nothing unusual as our companies traditionally rate the AsMA meeting very high in terms of registrants' interest, quality, and expectations met.

### PRESENTATION OF PRODUCTS OR SERVICES

The purpose of AsMA's exhibit program is to further the education of the registrants. The exhibits must be of an educational character, and emphasize instruments, pharmaceuticals, books, products or services for use in the registrants' medical practice, teaching, or research. Sales are prohibited on the exhibit floor and other related convention areas during the meeting.
